

- KEY**
- Hybrid Application Site Boundary
 - Outline Application maximum building envelope
 - Detailed Application building envelope
 - Building projections

NOTES - OUTLINE ELEMENT

- This plan defines the maximum ground floor building envelope for the proposed buildings forming part of the outline planning application.
- Maximum extent of external protruding balconies, outside maximum envelope parameters, to not exceed 2m.
- Refer to Parameter plan 6 for building heights parameters.

DESIGN PRINCIPLES FOR OUTLINE APPLICATION BUILDINGS

- Commercial Buildings S8-S9**
1. **Massing and articulation**
 - a) Facade to step along building faces to break down massing
 - b) Facade to step in elevation to reduce visual impact on street level and to introduce green balconies and terraces along roof line.
 - c) Facades to be 3-dimensional with kinked elevations and deep recess cutouts to break down larger massings.

- Residential Quarter S11-S21**
1. **Massing and articulation**
 - a) Stepping in massing to break down long facades
 - b) Stepping to introduce more double aspect units
 - c) Different heights within same building block

2. **Balconies**
 - a) Balconies on external, street facing facades to be integrated and recessed within massing
 - b) Balconies on internal, courtyard facing facades to be expressed and protruding from facade line.
 - c) Balconies to be varied in materiality, size, arrangement and position.
