Inspectors Question xxxviii
Land Station Road/Turn Lane, Over

Further to my previous representation I would like to add the following in response to the Inspectors questions.

The land does not meet the criteria for LGS, it is privately owned and has no public access. This has not changed since the 2009 Inspectors report stating *'having limited value as a landscape, visual or community asset and with no right of public access. This site is therefore not considered to be important to the amenity and character of the village'*.

Over is particularly well served by green space and village access to those areas of the large Village Green and community centre with playing fields.

The Parish Council would not be able to fund the upkeep of additional public green space with its limited resources.

The need for local housing is very important and as such would create 'useable open space' for the public should an application be successful.

At the Parish Council meeting on November 8th 2016 a meeting took place regarding the village allocation suggestions for LGS. After discussions took place it was agreed by the councillors to withdraw its allocation on the land named above.
