

SC8/SCDC– Supplement 1

Examination into the Soundness of the
South Cambridgeshire Local Plan

Matter SC8 – Supplement 1 – Promoting Successful Communities

South Cambridgeshire District Council

September 2016

1. This document supplements the Council's Matter SC8: Promoting Successful Communities statement.
2. At paragraph 41 of that statement the Council had indicated that it was seeking the advice of Natural England (NE) on the current status of the ANGSt standards as information about these standards appeared to be on an archived section of Natural England's website.
3. The Council has received a response from NE which confirms that the standards are still valid and have not been deleted, replaced or revised in any way.
