Hi [REDACTED]

I hope you are well. I'm conscious you are helping us with our revised report timescale and I wanted to say thank you. I'm aware it's a rather dynamic situation our side!

When we last spoke you asked a few questions. Please accept my apologies for the delay in getting back to you on these, and please find the responses below. I hope this is helpful.

Qu: Can we publish information? le in Economic Journals

No objections to you publishing information following the trial and your analysis, but could we please see what you are intending to publish before it is finalised and sent for publishing.

Qu: Authorship - normally your names and institutions would be on the front cover and we would be inside. Is this ok?

In line with our initial response in the meeting, this is fine. As you know it is important to us that the report is independent, so we are very happy for you and colleagues to have your logo's/names etc on the front cover of the report and wherever is appropriate within it.

Qu: Is SCDC happy to complete an impact statement on the value of your research?

Yes, we would be happy to do this.

You also mentioned that you may be likely to publish other information around the same time on a similar/same subject. Can we ask that you give us sight of anything that would mention us in advance please. Thank you. If there is anything else we can do to support university processes or anything else that you need, please don't hesitate to let me know.

Thank you again for the work you are doing for us and please let me know if you want any further information/clarification related to any of these points. I'm very happy to have a phone call if that works best.

Best Wishes
anne
