Response to the Inspectors question xxxviii

Over Parish Council didn't justify, why this was special and who would benefit from the proposal to make this site a Local Green Space. With no access to the public, this site fails on all of the criteria, for a Local Green Space designation. The Inspector made it quite clear in 2009 that this site, '*does not contribute to the amenity and character of this part of the village.*' This was then adopted by South Cambs in January 2010.

The site is privately owned and completely overgrown with trees, brambles and scrub. A sensitively planned development, could result in better management for this site, and also enhance this part of the village. As a joint owner of this site I am asking that the proposal for this site be removed from the Local Plan.

I would also wish to confirm I would like to be present at the hearing, when this is going to be considered by the Inspector.
